<b>ENERGY ANALYST</b>	<b>RANGE A:</b>	<b>\$3,199.00 - \$3,917.00</b>
	<b>RANGE B:</b>	<b>\$3,464.00 - \$4,279.00</b>
	<b>RANGE C:</b>	<b>\$4,154.00 - \$5,146.00</b>

LOCATION: **ENERGY DEPLOYMENT AND MARKET FACILITATION OFFICE**  
**ENERGY RESEARCH AND DEVELOPMENT DIVISION**  
**SACRAMENTO, CA**

FINAL FILING DATE: **UNTIL FILLED**

**DUTIES/RESPONSIBILITIES:** The goal of the R&D Program is to conduct research, development and demonstration (RD&D) to advance science and technologies not adequately provided by the regulated and competitive markets. The incumbent is knowledgeable of advanced clean energy technologies and their complex relationship related to environmental issues. The incumbent serves as part of interdisciplinary and/or interdivisional teams to plan and implement the Energy Research and Development (R&D) Program. This position requires a level of knowledge, skill and ability at the full journey level. The incumbent will be required to serve as technical specialist, prepare analytical assessments and evaluations, and provide technical direction, and coordination efforts to an interdisciplinary team and to management associated with benefits analysis for research and development projects.

**WORKING CONDITIONS:** The incumbent primarily works in an indoor office and meeting room setting involving sitting, standing, and walking as well as sitting for long periods of time. Travel is required to conduct project site visits, attend workshops, hearings and meetings. Additional hours beyond an eight-hour workday or forty-hour workweek may be required. While performing the duties described below, the incumbent will be required to work alone and/or in a team environment; utilize a personal computer and appropriate Energy Commission software such as Microsoft suite of software, electronic mail, Internet and analytical models. The incumbent will be required to plan, organize, assist and/or participate in meetings with other Energy Commission staff, staff from other federal and state agencies, consultants, contractors, and other parties active in energy-related research and development.

**DUTIES AND RESPONSIBILITIES:**

- Benefit Analysis. Develop, prepare, review and present technical analyses related to Deployment and Market Facilitation activities for meeting the state's clean energy goals, on clean energy technologies, and on the effectiveness of the various R&D program areas. Analyze project data to quantify the ratepayer benefits of the project/program defined as promoting greater system reliability, lower costs, and increased safety. Provide recommendations to the Energy Resources Specialist III (Supervisor), Office Manager, Energy Research and Development Deputy Director, Executive Office and Energy Commissioners as to resource allocations and benefit assessment of RD&D initiatives.

**(Cont'd)**

- Contract Management and Administration. Prepare documentation including: decision memos, work statements, budgets, schedules, special conditions, measurable technical and economic objectives, and other materials necessary to inform and manage the work and outcomes. Manage scope, schedule and resources through negotiation, review, evaluation, and acceptance of progress reports, invoices, and technical reports. The incumbent oversees the funding agreements which includes developing work statements; individual work authorizations; budget; schedules for individual projects; measurable technical and economic objectives to determine project success. The incumbent ensures projects are in compliance with scope of work; prepares other materials necessary to finalize the funding agreement and contract document; establishes and maintains a technical and business relationship with the contractor; initiates and approves contract amendments; receives and reviews contractor's monthly progress reports and prepares an evaluation of the project; audits, processes and verifies invoices; conducts independent and in-depth technical reviews of the work conducted by the contractor; works directly with the contractor and makes project site inspections to ensure the project meets technical, fiscal, and administrative objectives; and briefs office, division, and Energy Commission management on the status of the project. Coordinate with the Management Team as necessary to maintain expertise for technical research issues in the full array of energy technologies.
- Solicitation Management and Administration. Lead and assist in Deployment and Market Facilitation Office contract solicitations including developing solicitation business processes, preparing solicitation documents; preparing task activities and schedules; and reviewing and evaluating proposals. Activities will also include developing methodologies to focus solicitations on renewable related activities, developing and writing solicitation documents, assisting in conducting bidders' conferences, developing written summaries of evaluations prepared by consultants and state leads, and presenting proposed awards to management and Commissioners for approval.
- Technology Transfer. Implement Program-wide technology transfer strategies to improve delivery of RD&D in the marketplace to increase the impacts of Commission RD&D, including managing publication of research results and providing training regarding process, content, and format; preparing research project summaries for publication; planning, writing, editing, and managing Web site content; researching, reporting, and briefing Office, Division, and Commission management on project, program and technology achievements; and assistance with planning, writing, editing, and publication of strategic plans, annual, and semi-annual reports to the California legislature and California Public Utilities Commission.

**DESIRABLE EXPERIENCE/QUALIFICATIONS:** The successful applicant should have:

- Ability to communicate effectively and be able to relay complicated information in a simple, consumer-friendly manner
- Excellent interpersonal and team leadership skills
- Ability to work with other offices within the Division and other Divisions within the Commission on interdisciplinary projects
- Ability to effectively write and edit technical program information

**WHO MAY APPLY:** Eligible candidates who are current state employees with status in the above classification or lateral transfers from an equivalent class, former state employees who can reinstate in this classification or persons who are reachable on a current employment list for this classification. Appointment is subject to the provisions of the SROA process: SROA / SURPLUS / REEMPLOYMENT candidates are encouraged to apply and must attach a copy of their status letter. Will consider a Training and Development (T&D) Assignment.

Interested applicants must submit a completed Standard State Application (Form STD. 678) with an original signature, to the contact/address listed below. **You must clearly indicate the basis of your eligibility (i.e., list, transfer, SROA/Surplus, reinstatement, etc.) in the "Explanation Section" of the STD 678.** A separate application is required for each position.

Resumes are welcomed but do not take the place of the completed State Application STD 678. Applications will be screened for experience and only the most qualified will be contacted for an interview. **NOTE: Failure to comply with the filing instructions and incomplete applications received will not be considered.**

***Please Note:** Possession of the minimum qualifications will be verified prior to the interview and/or appointment. If it is determined an applicant does not meet the minimum qualifications, the application may be forwarded to the State Personnel Board for review and the applicant's name may be removed from the eligibility list.*

Prior to appointment to an Energy Analyst classification, applicants will be required to pass an energy-related written technical assessment test.

INTERESTED APPLICANTS SHOULD SUBMIT A COMPLETED STANDARD STATE APPLICATION (FORM STD. 678) TO:
